

Seed is a modern salad brand redefining the UK food scene. Since 2018, we've changed the way people think about salads, making nutritious eating accessible. Inspired by California's food culture, our seasonal menu is served in spaces that attract high footfall and enhance communities. We don't just serve salads—we create destinations. Our health-focused concept drives traffic and adds value to properties.

Seeking locations in Manchester City Centre—let's connect!
